### ACADEMIC PROJECTS: -

#### ➤ Online Examination System Project

The project is about online examination system, now a days it is very popular as well as essential kind of exams. The online examination system examines the user-id and password with his/her admit card details. Candidates can also give the exams from any place by the help of mobile and PC. Anybody can access the website at any place because it is a web-application. Online examination system is meant for educational institutes to improve fast way of conducting exams through internet. We used HTML, JavaScript, MySQL, etc. to develop this project.
