Board : Board of Secondary Education (BSE), Odisha

PROJECT UNDERTAKEN

Diploma Final Year Project:

Project Title : Four Way Light Traffic Control

Duration : Oct '10 - Nov 11'

Project Summary: To avoid accidents and traffic in a road by using Microprocessor.

COMPUTER SKILLS

Technical Skills: C, C++, .NET, Digital Electronics,

EMPLOYMENT DETAILS

I have 3 years working with HEXAGON MINING, India as an Operation & Maintenance Engineer.

1.	GPS Based OITDS
Client	Coal INDIA Ltd.
Role	Operation & Maintenance Engineer
Team Size	24
Duration	March 2018

Project Description:

Hexagon Mining Solutions is a leading company in India providing Surveying and measuring solutions in India and neighboring countries. As energy costs fluctuate, high-grade ores become scarcer, and profit margins tighten, productive mines recognize that technology is essential to their success. Companies must be smarter, safer, and quicker to respond to change. Their future depends on it. Hexagon recognizes that the competitive edge of its customers depends on empowering an autonomous future by integrating, automating, and optimizing critical workflows. This means smart mines that are efficient to operate, maximize safety and minimally impact the environment throughout the life of a mine which introduces GPS based OITDS system.
